Example Timetables

Please see below sample timetables for children's Zoom learning whilst at home. We realise that there needs to be a balance between children sitting at screens and spending time with their family members to support their learning and understanding.

Timings below will be adjusted slightly for each year group according to when teachers have their PPA time, and you will be told when your child has learning.

For English and Maths, classes are split into smaller groups to allow children to be able to speak and ask questions during the Zoom sessions (this is very difficult to manage with 30 children).
