

How does it work?

Signing up for Zoom is very easy. To get started, all you have to do is to give your name and email address, create a password and confirm your email.

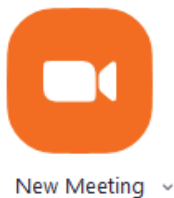

If you're using the mobile app, you'll be asked if you want to enable fingerprint ID as well. You can also join a meeting without signing up. Click the link below!

<https://zoom.us/join>

Then you can either join an existing meeting by putting in the Meeting ID, or create a meeting of your own and send the Meeting ID to the people you want to chat with.

You need to click the **join** button. It will ask you to enter the **meeting ID**. It should have been given to you from school. Please be patient and wait for the teacher to receive you at the meeting

The image shows a Zoom application window with a 'Join Meeting' dialog box open. The dialog box contains a title bar with the Zoom logo and a close button. Below the title bar, the text 'Join Meeting' is displayed. There are two input fields: the first is for 'Enter meeting ID or personal link name' with a dropdown arrow, and the second is for 'Enter your name'. Below these fields are two checkboxes: 'Do not connect to audio' and 'Turn off my video'. At the bottom right of the dialog box are two buttons: 'Join' and 'Cancel'. Two black arrows originate from the text in the top box: one points to the 'Join' button in the Zoom interface, and the other points to the 'meeting ID' text in the dialog box.
