### Curwen Homework Project

On **Monday 29th March** we will be holding our annual Easter Bonnet Parade virtually from school. Please work with your child to make a bonnet (an Easter-themed hat) at home in preparation for the parade. It can be as inventive as you like, but please remember that your child should do as much as possible towards the project 😊

The latest the children can bring in their bonnets is the morning of Monday 29th March, but please feel free to bring them in earlier next week if you wish. All bonnets must be taken straight into class - we are unable to receive bonnets at the main office (unless attending breakfast club).

As mentioned previously, due to current restrictions we are unable to invite parents and carers into school for events at this time. You will be able to view the socially distanced parade via our website later that week. We will be filming class-by-class and this will be available for you to view. Winners will be announced for each class later that week and prizes will be sent home.

Please also note that if you have indicated that you do not wish photos/videos of your child to go on the school website on the 'Multi-Consent form' that was sent home last term, then your child will NOT take part in the recording as you have expressed.

You will need to make your own bonnet using materials of your choice. Below are some examples to help give ideas on what you can make, but of course the only limit is your imagination (And failing that there is always Google!)

So get cracking!
