THE TRUTH HAS BEEN EXPOSED!!

Daily Donut

Sources close to the Prime Minister claim that fabrications of the truth were common practice during WWII, such as details of high civilian casualties. This was due to the fact that this might have hampered their war efforts and was damaging for morale.

Almost seventy years after WWII, we can now exclusively reveal the whole truth about the horrific bombing of South Hallsville School, Canning Town, East London in 1940. This disaster can now be listed as the air raid with the most civilian casualties of the war.

THE GERMANS DROPPING BOMBS ON THE HOPLESS BASEMENT.

After all this time, we can reveal the government kept a horrendous secret about this devastating event. They stated only 77 bystanders passed away. However, this was not accurate. The truth is that 600 individuals died on that tragic day in Canning Town.

For years people believed that the highest number of civilian casualties happened in another area of the East End, when an accident at Bethnal Green tube station killed 173 people in 1943.

“All this time people have been thinking that 77 died. I’ve been saying for years that hundreds died, but they didn’t believe me. Now the truth is exposed. I hope this will give people peace in mind,” exclaimed James Bond, who survived this horrendous event.

DEVASTATION AND DESTRUCTION

Margret Dob, David Cameron’s spokeswoman announced: “I am here today to apologise to the members of public for lying and not the exposing the truth. We politicians aren’t supposed to lie. Our job is to work hard for the country, find better ways of democracy and be strong against our enemies. Now the truth is exposed let’s put this to bed and carry on as we were.”

With this exclusive information published, hopefully relatives and friends, not forgetting about those few remaining survivors from that unforgettable day back in 1940, will be able to carry on with their lives and overlook this horrific event. Read again tomorrow for the latest news and key events regarding The South Hallsville bombing.
